**REPEAL THE GAS TAX**

# **KEY FACTS & How You Can Help!**

## **FACT 1: THE HIGH COST TO YOU**

California's cost-of-living is skyrocketing higher and working families can barely keep up. The new gas and car tax hikes will cost the typical family of four more than \$700 per year! That's not pennies, that's real money.

## **FACT 2: POLITICIANS STEAL THE MONEY**

Not a single penny of the gas and car tax is earmarked for road repairs. Politicians can spend the funds any way they want – and they have shown a pattern of diverting funds away from road repairs.

## **FACT 3: WASTEFUL SPENDING**

Of the little bit of money actually spent on roads, Caltrans is notoriously wasteful with the money. In fact, an independent audit revealed billions in waste and projects cost taxpayers 470% more than the national average.

## **FACT 4: A BETTER ALTERNATIVE**

We already pay one of the highest gas tax rates in the nation – and that money is more than enough to fix our roads if the politicians would simply stop fraudulently diverting the money. A coalition has filed a ballot measure to put this better alternative to a public vote at the next election.
